

## Perfect for a wide range of video production needs, such as recording live shows and events.

### Compact design and quiet operation for smooth integration with your space.

The compact size and dome shape makes the camera's movements virtually unnoticeable. The new direct-drive motor reduces the operating sound to NC25 or lower. Its quiet operation makes subjects less conscious of the camera while in use.

### Flexible to adapt to various shooting situations.

The UE80 supports 4K/60p to render smooth high-resolution video images. With its wide 74.1° lens angle and optical 24x zoom, the camera captures details clearly - even from a distance - as well as the entire area from a limited space. The UE80 is equipped with many professional features and functions, including FreeD compatibility to connect to AR/VR systems for virtual productions.

### High quality video transmission with low latency.

The UE80 supports High Bandwidth NDI<sup>®</sup>\*1,2 for IP transmission of high-quality videos with a low latency and NDI<sup>®</sup>|HX<sup>3,4</sup> for efficient video transmission on limited bandwidth. Stable video streaming is realized regardless of bandwidth. The UE80 also offers high security, so it can be used safely in any video shooting setting.

\*1 NDI<sup>®</sup> is a new protocol developed by NewTek, Inc. that supports IP video production workflow.

\*2 NDI<sup>®</sup> is a registered trademark of NewTek, Inc. in the United States and other countries.

\*3 In this instance, NDI<sup>®</sup> is used to indicate low latency with high bandwidth NDI<sup>®</sup>. NDI<sup>®</sup>|HX is used to indicate high efficiency low bandwidth NDI<sup>®</sup>|HX.

\*4 In the NDI<sup>®</sup>|HX mode, 4K video signals cannot be output. AW-UE80 supports NDI<sup>®</sup>|HX<sup>®</sup> version 2 and Full HD output.

# Various functions to flexibly adapt to the shooting scene

## Supports SRT\* to ensure secure and stable video streaming

The UE80 supports SRT, a next generation video transport protocol that provides robust security and works well even with an unstable network environment.

\*Abbreviation for Secure Reliable Transport

## Supports popular output interfaces

The UE80 supports three output interfaces—3G-SDI, HDMI and IP—so it can be used together with a wide range of devices.

## Useful software to simplify workflow

The UE80 supports various software such as Auto Tracking Software and PTZ Control Center. The software simplifies the shooting workflow using PTZ cameras and reduces the operation and management workloads.

## Accessories

**Remote Camera Controller AW-RP150**  
High operability ensured through touch-panel GUI monitor and a new type of joystick.

**Remote Camera Controller AW-RP60**  
Equipped with a GUI menu screen for clear visibility and a joystick for intuitive control.

**Auto Tracking Software Key AW-SF100/AW-SF200**  
Face recognition and human body detection for high precision and smooth tracking control for natural-looking video.

**Visual Preset Software Key AW-SF300**  
GUI screen that enables the subject of multiple PTZ Cameras to be switched with a single click of an icon.

## FreeD\* compatibility allows for the configuration of an AR/VR system

The UE80 can output commands in conformity with FreeD so it can be connected to an AR/VR system.

\*FreeD is a protocol widely used for transmitting the camera's tracking information primarily for use with a virtual studio system.

## Built-in auto tracking function

The UE80's built-in auto-tracking function allows capturing a moving presenter and speaker. The camera work follows the speaker without the need for detailed operation by the operator, allowing for realistic video shooting at any time.

## Other features

- Optical Image Stabilization (OIS)
- RTMP/RTMPS for direct streaming
- Web GUI for camera control

## AW-UE80W/K Specifications

Comprehensive	
Power Requirements	12 V DC (10.8V to 13.2V)(Supplied AC adapter)
PoE++	IEEE802.3bt compliant:DC42-57 V
Current Consumption	3.0 A (AC adaptor input), 1.0 A (PoE++ power supply)
Mass	Approx. 2.0 kg(4.41 lbs) (excluding ceiling mounting bracket)
External Dimensions	Width 170.0 mm x Height 211.0 mm x Depth 171.0 mm(6.693 inches x 8.307 inches x 6.732 inches) (Excluding protrusions, cable cover, ceiling mounting bracket)
Camera Part	
Image Sensors	1/2.5-type MOSx1
Effective Pixels	Approx. 8.49million pixels
Lens	Motorized Optical 24x zoom, F1.8 to F4.0 [f=4.12 mm (5/32 inches) to 98.9 mm (3-29/32 inches); 35 mm (1-3/8 inches) equivalent: 25.0 mm (31/32 inches) to 600.0 mm (23-5/8 inches)]
Zoom Magnification	• Optical zoom: 24 x • i.Zoom UHD 28 x, FHD 36x • Digital extender zoom: 1.4 x, 2 x
Angle of View Range	Horizontal angle of view: 74.1° (wide) to 3.3° (tele) Vertical angle of view: 46.0° (wide) to 1.9° (tele) Diagonal angle of view: 81.8° (wide) to 3.8° (tele)
